

ACCESS OF THE RED RIVER VALLEY, INC.
CONFLICT OF INTEREST

NAME:

HOME ADDRESS:

Access of the Red River Valley, Inc. depends upon a governing Board of Directors whose members give freely of their time for the benefit of the agency. Access recognizes that because of varied interests and involvements of its members, Board service may at times result in situations involving real or apparent conflicts of interest. Believing that service should not be rendered impossible solely by reason of these conflicts, the matter shall be handled through full disclosure of such interests. These requirements shall not be constructed so as to prevent a Board member from briefly stating his or her position on the matter, nor from answering pertinent questions of other members since his or her knowledge may be of great assistance.

To constructively participate in the process while handling conflict of interest situations responsibly, Board members will file a conflict of interest form, disclosure conflict situations to other Board members prior to deliberation of the issue in question, and abstain from using his or her personal influence on the issue in question. Minutes of the meeting will reflect disclosure.

I have read the Access of the Red River Valley "Conflict of Interest" statement of policy and understand its provisions and I hereby affirm that during my tenure as an Access of the Red River Valley board member I have/will not, to the best of my knowledge and belief, be in a position of possible conflict of interest, except as indicated below:
